**Subject:** CES - Trustee Assistance Needed  
**Date:** Friday, October 03, 2014 11:33:14 PM

---

**Mickey:**

We are attempting to provide direct electrical power to our work trailer and to discharge to the City of Houston Sanitary Sewer. According to the City we will need the permission of the Trustee (property owner) to set up these services since we do not own the property. I am not sure the best way to handle this except for the Trustee to give us limited authority to set up set up city services for the property. Mr. Cargas may be able to provide us with guidance on how to execute this limited authority in order to satisfy the City requirements.

Thanks for your assistance.
